## **Feed Energy Company Names Paul Knockel as Director of Plant Operations**

**Des Moines, IA – January 28, 2008** – Feed Energy Company today announced that Paul Knockel has joined the company as Director of Plant Operations. Knockel has 15 years of manufacturing and leadership experience with Land O'Lakes where he was promoted into increasingly more responsible positions in plant operations and Quality Assurance.

“We feel very fortunate that we have been able to add Paul to the Feed Energy team” states Bob Riley, President and CEO. “Feed Energy’s continuing growth really demands that we look for additional efficiencies in our operations while maintaining the high level of quality for both products and services that our customer have come to expect,,” he continues. “Paul has the perfect blend of management, operations and quality systems leadership experience.”

Feed Energy Company is an agribusiness firm primarily engaged in processing soybean oil co-products focused in feed, agronomy, dust control, fuel, and industrial and fertilizer applications. The company is one of the largest acidulators of soybean soap stock in North America and produces scientifically balanced ingredients specific to their customers’ needs. The company headquarters and original production facility have been in Des Moines for more than 30 years, with additional Iowa production facilities in Sioux City and Pacific Junction.
