Feed Energy Sponsors 2008 State Science + Technology Fair of Iowa

August 2008 – Des Moines, Iowa – Feed Energy Company of Des Moines, Iowa, has been recognized as a Bronze Sponsor of the 2008 State Science + Technology Fair of Iowa. Feed Energy has also been recognized by Fair organizers for increasing their level of sponsorship over 2007.

Robert G. Riley, Jr., President and CEO of Feed Energy, says the company is proud to support the young scientists who receive recognition and support as a result of the event. “As we look to the next generation for world class scientists,” says Riley, “it is great that we are growing them right here in Iowa.”

The State Science + Technology Fair of Iowa is recognized as one of the outstanding state science fairs in the nation. The event, hosted by Iowa State University, showcases Iowa’s best and brightest 6th – 12th grade students in the areas of science, engineering and technology, and provides hundreds of Iowa students opportunities to explore science and technology through hands-on research and provides inspiration to prepare for professions in these disciplines. More than 500 projects were judged by a volunteer pool of scientists and engineers from private industry and higher education. Dr. Mohan Dasari, Director of Research and Development for Feed Energy, served as a judge for the 2008 competition. This year’s winners took home a combined total of more than \$60,000 in scholarships and prizes.

Feed Energy Company is an agribusiness firm primarily engaged in processing soybean oil co-products focused in feed, agronomy, dust control, fuel, and industrial and fertilizer applications. The company is one of the largest acidulators of soybean soap stock in North America. The company headquarters and original production facility have been in Des Moines for more than 30 years, with additional Iowa production facilities in Sioux City and Pacific Junction.
