Feed Energy's Bruce Lindquist Elected to AFIA's Liquid Feed Committee

Des Moines, IA – June 19, 2009 – Feed Energy Company today announced that Bruce Lindquist has been elected to the American Feed Industry Association's (AFIA) Liquid Feed Committee. Bruce joined the FEC sales staff in 2007 as a 25-year feed industry veteran.

The Liquid Feed Committee represents the interests of liquid feed manufacturers, suppliers, and distributors. The committee is responsible for the annual Liquid Feed Symposium and the liquid feed tonnage survey in addition to working with AFIA staff to provide regulatory representation for the liquid feed industry, maintaining subcommittees for research and education, finance and sponsorship, and membership.

In her letter to Bob Riley, Feed Energy CEO, Leanna Nail AFIA's Director of Administration stated, "I wanted to let you know that Bruce Lindquist has been elected to the Liquid Feed Committee. His term will run from May 2009 to May 2012. Thank you for your commitment to the liquid industry and the Liquid Feed Committee. Bruce will be a terrific asset to the group." Bob Riley comments, "I can't tell you how pleased I am that members of our professional FEC staff are being recognized by national groups such as AFIA. Our company is proud to have Bruce elected to this important AFIA committee as it speaks to the high regard in which FEC is held by our peers."

The AFIA is the world's largest organization devoted exclusively to representing the business, legislative and regulatory interests of the animal feed industry and its suppliers. Membership includes 550 domestic and international companies; state, national and regional associations.

Feed Energy Company is an agribusiness firm primarily engaged in processing soybean oil co-products focused in feed, agronomy, dust control, fuel, industrial and fertilizer applications. The company is one of the largest acidulators of soybean soap stock in North America and produces scientifically balanced ingredients specific to their customers' needs. The company headquarters and original production facility have been in Des Moines for more than 30 years, with additional Iowa production facilities in Sioux City and Pacific Junction.
