

# HYPERCAL 3800

Economical Livestock Gains

A more nutritious option for an economical cost, the **HyperCal 3800** livestock supplement is a fat-based feed ingredient that typically contains 3,800 kilocalories of metabolizable energy per pound. Our products are backed by the Safe Feed Safe Food certification and are proprietarily formulated in our lab.

## WHY CHOOSE FEED ENERGY?

- ✓ **Science:** The science behind Feed Energy assures you of accurate and safe supplemental fat energy levels that optimize feed rations, save money and reduce variability.
- ✓ **Service:** From tank repairs, calibration and service to tank monitoring systems, seven-day-a-week delivery to a dedicated fleet of drivers, Feed Energy's commitment to customer service is second to none.
- ✓ **Safety:** Incoming raw ingredients and produced materials are tested internally utilizing near-infrared spectroscopy and gas chromatography equipment, then validated by independent third-party testing. Feed Energy has earned the Safe Feed/Safe Food certification from the American Feed Industry Association.
- ✓ **Relationships:** From providing custom blends to meeting your deadlines, Feed Energy is committed to the success of your operation. Just as important, the company plays a leading role in enhancing the success of your industry associations and improving the safety and quality of agricultural food production for all.

# HYPERCAL 3800

**HyperCal 3800** is a scientifically-formulated blend of vegetable oils and high-grade animal fats produced to provide high energy at an economical cost. A balanced blend of unsaturated and saturated fatty acids will assure you of the proper fatty acid profile designed to satisfy the nutritional needs of a variety of species. **HyperCal 3800** typically contains 3,800 kilocalories of metabolizable energy per pound.

PARAMETER	PRODUCT SPECS <i>Typical Analysis</i>
Metabolizable Energy	3,800 Kcal/lb
Total Fatty Acids	>90.0%
Moisture by Karl Fisher	<2.0%
Insoluble Impurities*	<1.0%
Unsaponifiable Matter	<2.0%
Pesticides and PCB	Below FDA/EPA tolerance levels
Initial Peroxide Value	<5 meq/Kg
Preservative	Available Upon Request

\*All tallow raw materials accepted at Feed Energy are certified to be less than .15%
